4. REDISTRICTING

Redistricting has not occurred or been required since the establishment of the five commission districts in 1991. K.S.A.19-204 allows for the review, rearrangement and or alteration of Commission Districts to ensure compact and equal population within each district. The most recent population figures available from the U.S. Bureau of the Census are used to determine redistricting.

The Commissioners have determined from review of the records with the County Clerk that the Commission Districts are not as compact and equal in population as they should be.

Crystal Clemens, Deputy County Clerk/Election Official along with GIS Director, Lisa Olson worked to move precinct lines to provide equal population between the Commission Districts. A Resolution including precinct descriptions and maps were presented to the Commission.

Clemens, requested approval of Resolution 2013-12, a resolution describing the five member commission districts and precinct boundaries. She advised that upon publication in the Official County Newspaper, districts will be updated in the Election Voter Information System (ELVIS) and new notice of disposition cards will be mailed to voters whose ward and precinct changed. The

resolution and maps will be forwarded to the Secretary of State for final approval.

Commissioner Wettstein moved to approve Resolution 2013-12 as presented. Commissioner Rice seconded the motion; motion carried 5-0.

To see Resolution 2013-12 in its entirety, see page 5.

A request was made to invite a representative from the State as well as Ms. Curry, Mr. Abbott and Marcie Weatherly Planning & Zoning Director to attend the next meeting to see if a resolution can be reached.

This item was tabled till the meeting on November 18, 2013.
