

## Party Changes before Primary are Limited

### Deadline: June 1

A new law passed in 2014 by the Kansas Legislature prohibits party members from switching parties during a period beginning June 1, through the date when the results of the August primary are certified.

**Registered voters who are affiliated with a party (Democratic, Republican, Libertarian) may not file paperwork to change their party affiliations from June 1 through August of this year.**

A registered voter who is unaffiliated may, however, affiliate with a party during this period, when voting at the primary, or when requesting an advance ballot.
